BroadLight Closes \$12 Million Series E Financing Led by Benchmark Capital

Mountain View, Calif., September 11, 2007 – BroadLight, the leading supplier of GPON semiconductors and software, today announced that it has closed a \$12 million series E financing round led by Benchmark Capital. Benchmark joins BroadLight’s premier list of investors which includes Azure Capital Partners, Broadcom, Cipio Partners, Delta Ventures, Israel Seed Partners, Motorola Ventures, Star Ventures and Tellabs.

“We believe BroadLight has enormous opportunity in the growing GPON fiber market,” said Arad Naveh, general partner at Benchmark Capital Israel. “The company has clearly demonstrated its ability to execute with the development of the widely accepted first generation GPON ONT SoC and 4 port OLT ASIC product lines. We anticipate the same time-to-market delivery and world-class silicon integration with its upcoming Residential Gateway product line.”

“This financing round demonstrates the opportunity that BroadLight has in the GPON market through its design win success and flawless GPON silicon delivery,” added Anthony Maher, BroadLight’s Chairman. “With strong customer adoption, a proven track record and the support of tier-one investors like Benchmark, we are committed to continued innovation and market leadership.”

About Benchmark Capital

Benchmark Capital, a leading venture capital firm, was founded in 1995 to help talented entrepreneurs with original ideas build successful technology companies. Benchmark’s general partners take a team-oriented, labor-intensive approach to venture investing to deliver a superior level of service to the firm’s portfolio companies. Benchmark’s portfolio includes high-profile start-ups like Infinera, MySQL, OpenTable, Second Life, Tellme, Yelp, and Zillow, and franchise companies such as eBay, Juniper Networks and Red Hat. The firm manages more than USD 2.4 billion in committed venture capital. For more information on Benchmark Capital, visit its website at www.benchmark.com.

About BroadLight

BroadLight delivers end-to-end (E2E) solutions (from the customer premises to the central office) for equipment vendors designing ITU-T compliant passive optical network (PON) systems. The company's completely integrated product line consists of standards-based communication semiconductors and software solutions that enable its customers to deliver BPON and GPON equipment to carriers and services providers worldwide. This E2E solution provides customers with a lower risk development cycle and enables them to significantly speed time-to-market. As a result, BroadLight technology has been adopted by leading manufacturers who are currently providing equipment for the some of the world's largest fiber PON roll-outs.
