## **For Immediate Release**

### **BroadLight announced the expansion of its worldwide presence in Korea, Russia and Belarus**

**April 22, 2010 – Santa Clara, Calif.** – BroadLight, the leading supplier of Ultra-Broadband Residential Gateway and GPON semiconductors, proudly announced today that it added additional distributors to increase its business in Russia, Korea and Belarus.

BroadLight signed a distribution agreement with Premier Electrics who will represent BroadLight in Russia and Belarus, meeting the growing demand in those regions for GPON technology.

BroadLight signed a distribution agreement with Minova who will represent BroadLight in Korea, meeting the growing demand of innovative Residential Gateway solutions.

#### **About BroadLight**

BroadLight is a fabless semiconductor company supplying semiconductor devices and solutions to equipment vendors for FTTH applications around the globe. Its technology spans from optical access to home networking which enables the delivery of highly integrated, low-cost, end-to-end (E2E) solutions from the central office to the customer premise. As a result, BroadLight is the leader in GPON semiconductor devices and software and is currently powering all of the world's largest PON deployments.
